Get the "Baby Book"

It Will Help You Make the Baby Grow Strong

Liebig, the great food expert who was made a baron by the German government, was the first to tell what elements the right food for babies should consist of, and Liebig's Food contains those elements in the form of wheat, partially digested by cooking with barley malt; lime phosphates; milk sugar. These, mixed with milk, will in a few days change the sticky, crying baby into a hard-cheeked youngster with a healthy chuckle. The milk sugar is important, because it does not ferment and irritate the little one's stomach. It soothes.

Liebig's Food has been used and endorsed by leading physicians and hospitals for years.

Shoe-Leather Perfection

No leather ever tanned for shoes can possibly give you the all-round satisfaction of King Calf.

Except the patent and enameled leathers, it has no equal in brilliance.

Except the double-thick, heavy "grain" leather, it has no equal for endurance.

It has no equal, without exception, for fineness of texture, firmness, cleanliness, and solid comfort in every kind of weather. Can be had in Regals of almost every model—used in Regals exclusively.

Quarter Sizes

Seventy-five Regal styles—and the regular price, right through the whole list, is \$3.50 as usual.

But to meet the insistent demand we have made up 15 special models at \$4 per pair. The extra 50 cents enables us to build a wholly new Regal list. The advantage of the special \$4 models over the \$3.50 Regals are in their extra custom features. All of the leathers and other materials in them are the BEST of the BEST and they have a little more hand-work etc. They are true business shoes, and give genuine custom-made \$12 shoes equal their handsome appearance.
